Looking to leave a lasting legacy in the classroom? Seeking purposeful work? Mission Montessori is a Faith-based program serving the community and greater Chattanooga with an accessible Montessori environment in a part-time setting.

Are you a Montessori Certified Teacher? At MMS, we offer part-time and full-time employment options. We offer discounts for staff children depending on scheduling and availability of enrollment. Summer employment is available based on enrollment.

Thoughts on a well-equipped Montessori teacher: A Montessori teacher is able to observe, adjust, and enhance the classroom based on the responses of the children. There is a continual balance of flourishing that stems from "strike the imagination" lessons to discovering how a certain child learns his letter sounds best. That may be a live animal presented as we begin the study of mammals, or making letters with pasta to review the letter sounds that are more challenging. Every day is new and provides its own revelation. Learning with and from the child is a necessity.
